Gaurav Hindi Vidhyalay

PROJECT

A Roll Based Authorize Web App

🔗 **https://finale-project-node.onrender.com**

- Developed a robust Role-Based Admin Panel using JWT, Mongoose, EJS, Node.js, and JavaScript. Implemented CRUD operations, user authentication, and responsive design.

A Food Portal System

🔗 **https://github.com/kalpeshji/Food-Portal.git**

- Created a Food Portal web application with React.js and JSX. Utilized CRUD operations, hooks, routers, and responsive design to enhance user experience.
